Emergency Services

Commitment To Care

Upon arrival, each patient's history is reviewed by a doctor prior to performing a detailed examination. Each doctor can immediately collaborate with any of the other specialists, in order to provide the best care possible within the financial means of the client. Each client is treated with kindness, sensitivity and empathy. We understand that this can be an anxious time for clients and we aim to make each visit as calm and efficient as possible.

IndyVet is an American Animal Hospital Association accredited hospital. AAHA is the only organization that inspects and accredits veterinary practices in North America. Every three years, AAHA evaluates approximately 900 standards of veterinary excellence in order to remain accredited. Less than 15% of veterinary practices in the United States hold the "AAHA accredited" designation.

Exit I-465 & Emerson • Turn East at Steak 'n Shake

Communication at IndyVet is ongoing, with daily updates to the pet owner and referring veterinarian. IndyVet believes that the greatest patient successes are created by blending the knowledge and skills of each staff member and professional colleague in unselfish and genuine collaboration.

Consequently, IndyVet assures that each referring veterinarian receives a detailed synopsis of every case along with a copy of the discharge instructions and laboratory reports.

Caring and Professional Staff

The IndyVet staff serves its clientele by providing whatever is needed to aid, assist and comfort the patient, their family and referring veterinarians.

Members of our ER team are here 24/7 to ensure the best possible care day or night. They are trained to address untimely or unexpected medical or surgical circumstances and provide exceptional client service in addition to their outstanding patient care. Our nurses attend continuing education lectures and hands on training year-round to maintain their top-notch skills.

Open 24/7/365

Since emergencies are rarely scheduled, we are open 24 hours a day, 7 days a week, 365 days a year. Our dedicated staff of doctors and nurses work around-the-clock to provide whatever is needed to aid, assist or comfort patients, their families or referring veterinarians. Our practice focuses solely on emergency and specialty care so that we can assist general practitioners with difficult cases, leaving routine veterinary care to their expertise.
