Commitment to Care

IndyVet is a 24-hour specialty practice comprised of emergency, internal medicine, surgery and ophthalmology services. Our 22,000 square foot state of the art facility gives us the resources, technology and skilled staff to diagnose and treat almost any medical, surgical or emergent condition.

Our goal is to make each client experience as pleasant, comfortable and successful as possible by providing unsurpassed service and care to exceed all expectations. All pets are seen for their emergency or referred problem only. Routine veterinary care is not performed.

Open 24/7/365

Since emergencies are rarely scheduled, we are open 24 hours a day, 7 days a week, 365 days a year. Our dedicated staff of doctors and nurses work around-the-clock to provide whatever is needed to aid, assist or comfort patients, their families or referring veterinarians.

Upon arrival, each patient's history is reviewed by a doctor prior to performing a detailed examination. Each doctor can immediately collaborate with any of the other specialists, in order to provide the best care possible within the financial means of the client, while treating each client with kindness, sensitivity and empathy.

Communication at IndyVet is ongoing, with daily updates to the pet owner and referring veterinarian. IndyVet believes that the greatest patient successes are created by blending the knowledge and skills of each staff member and professional colleague in unselfish and genuine collaboration.

Consequently, IndyVet assures that each referring veterinarian receives a detailed synopsis of every case along with a copy of the discharge instructions and laboratory reports.

IndyVet is an American Animal Hospital Association accredited hospital. AAHA is the only organization that inspects and accredits veterinary practices in North America. Practices that accept the challenge of accreditation are inspected and evaluated every three years on very stringent quality standards in medicine, surgery, and administration. Less than 15% of veterinary practices in the United States hold the "AAHA accredited" designation.

Caring and Professional Staff

The IndyVet staff serves its clientele by providing whatever is needed to aid, assist and comfort the patient, their family and referring veterinarians.
