## Commitment To Care

Upon arrival, each patient's history is reviewed by a doctor prior to performing a detailed examination. Each doctor can immediately collaborate with any of the other specialists, in order to provide the best care possible within the financial means of the client. Each client is treated with kindness, sensitivity and empathy. We understand that this can be an anxious time for clients and we aim to make each visit as calm and efficient as possible.

IndyVet is an American Animal Hospital Association accredited hospital. AAHA is the only organization that inspects and accredits veterinary practices in North America. Every three years, AAHA evaluates approximately 900 standards of veterinary excellence in order to remain accredited. Less than 15% of veterinary practices in the United States hold the "AAHA accredited" designation.

## What We Do

Our facility is an extension of your veterinarian's practice. All pets are seen for their referred problem only. Wellness veterinary care is not performed.

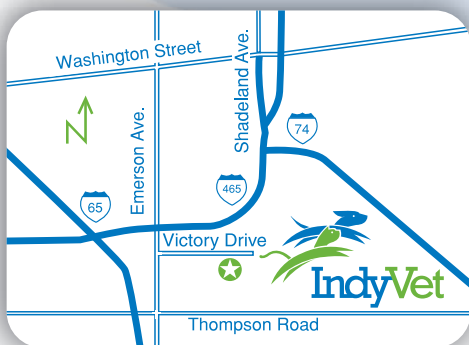

Upon arrival, the doctor will review your records, take a complete history and perform a detailed examination. These steps become the basis for your pet's diagnostic work-up and treatment.

Our dedicated staff of doctors and veterinary technicians work around the clock monitoring, treating, and caring for your pet.

Communication at our hospital is ongoing, with daily updates to the pet owner and referring veterinarian.

Upon discharge, a detailed synopsis of every case is sent to your veterinarian, along with a copy of your pet's discharge instructions, laboratory work and radiographs.

The information we provide you and your veterinarian will ensure the best possible care after your pet goes home.

Exit I-465 & Emerson • Turn East at Steak 'n Shake

## Caring & Professional Staff

The IndyVet staff serves its clientele by providing whatever is needed to aid, assist and comfort the patient, their family and referring veterinarians.

Members of our team are here 24/7/365 to ensure the best possible care day or night. They are trained to address untimely or unexpected medical or surgical circumstances and provide exceptional client service in addition to their outstanding patient care. Our nurses attend continuing education lectures and hands on training year-round to maintain their top-notch skills.

## 24-Hour Scheduling

Clients are seen by scheduled appointments. If your veterinarian would like to refer you the same day, or after hours, our facility can accommodate you.

If a specialist is not immediately available, an emergency doctor will admit your pet and contact the correct specialist for a consultation.

Many times animals need to be sedated for imaging or tests. We ask that you not feed your pet within 12 hours of scheduled appointments.

In order to hasten a diagnosis, veterinarians are requested to forward pertinent laboratory results or radiographs related to the pet's condition to IndyVet for review prior to the scheduled appointment.

## Estimates & Fees

All clients are given an itemized care plan upon examination detailing the initial 24 to 48 hours of hospitalization. A deposit is due upon admission.

Clients are informed daily of their fees by a doctor or a technician. Balances are paid upon discharge unless prior arrangements have been made.

You may make payments by Cash, Check, Mastercard, Visa, American Express, Discover, or Care Credit.

Suture removal after surgical procedures is performed at no charge.
