

Anesthesia

If your pet requires anesthesia, it's reassuring to have a team of experts you can rely on.

Our highly competent anesthesia team administers and monitors anesthesia tailored to each patient and the specific procedure. Working together with other IndyVet specialty teams and as a partner to referring veterinarians, we ensure the best anesthesia experience for every patient.

Anesthesia protocols are designed to meet the unique needs and personality of each patient. We pride ourselves on providing the safest customized anesthesia, utilizing the best drugs, a skillful team, and the most advanced monitoring technology available.

Commitment To Care

Upon arrival, each patient's history is reviewed by a doctor prior to performing a detailed examination. Each doctor can immediately collaborate with any of the other specialists, in order to provide the best care possible within the financial means of the client. Each client is treated with kindness, sensitivity and empathy. We understand that this can be an anxious time for clients and we aim to make each visit as calm and efficient as possible.

IndyVet is an American Animal Hospital Association accredited hospital. AAHA is the only organization that inspects and accredits veterinary practices in North America. Every three years, AAHA evaluates approximately 900 standards of veterinary excellence in order to remain accredited. Less than 15% of veterinary practices in the United States hold the "AAHA accredited" designation.

Caring and Professional Staff

The IndyVet staff serves its clientele by providing whatever is needed to aid, assist and comfort the patient, their family and referring veterinarians.

Members of our ER team are here 24/7 to ensure the best possible care day or night. They are trained to address untimely or unexpected medical or surgical circumstances and provide exceptional client service in addition to their outstanding patient care. Our nurses attend continuing education lectures and hands on training year-round to maintain their top-notch skills.

24-Hour Scheduling

Clients are seen by scheduled appointments. If your veterinarian would like to refer you the same day, or after hours, our facility can accommodate you.

If a specialist is not immediately available, the emergency doctor on duty will examine your pet and immediately contact the specialist for a consultation regarding your pet's condition. Patients are transferred to the specialist's care as soon as practical.

Many times animals need to be sedated for radiographs or tests. We ask that you not feed your pet within 12 hours of scheduled appointments.

In order to hasten a diagnosis, please bring any laboratory results or radiographs your referring veterinarian may have taken.

Estimates & Fees

All clients are given an itemized care plan upon examination detailing the initial 24 to 48 hours of hospitalization. A deposit is due upon admission.

Clients are informed daily of their fees by a doctor or a technician. Balances are paid upon discharge unless prior arrangements have been made.

You may make payments by Cash, Check, Mastercard, Visa, American Express, Discover, or Care Credit.

Suture removal after surgical procedures is performed at no charge.
