

As of June 1, 2020, IndyVet will begin Phase One of reopening our building to the public.

We understand that the weather is heating up and with that in mind, we have decided to open up our indoor waiting area to a limited number of guests. The safety of our clients and staff is our highest priority. We will continue to follow safety protocols outlined by the state. We strongly recommend that our visiting clients wear masks when entering our building and continue to practice social distancing upon entering. Our indoor waiting area will have limited capacity so please call upon arrival.

We will continue curbside service for any overflow guests or guests who prefer to wait in their car. Your pet will still be seen when you arrive. We will continue to communicate via telephone to limit face to face contact, except in cases such as euthanasia.

Thank you for your patience and understanding. We hope that you are staying healthy during this time.

The IndyVet Team
