Specialty Veterinarians

What We Do

Our facility is an extension of your veterinarian's practice. All pets are seen for their referred problem only. Wellness veterinary care is not performed.

Upon arrival, the doctor will review your records, take a complete history and perform a detailed examination. These steps become the basis for your pet's diagnostic work-up and treatment.

Our dedicated staff of doctors and veterinary technicians work around the clock monitoring, treating, and caring for your pet.

Communication at our hospital is ongoing, with daily updates to the pet owner and referring veterinarian.

Upon discharge, a detailed synopsis of every case is sent to your veterinarian, along with a copy of your pet's discharge instructions, laboratory work and radiographs.

The information we provide you and your veterinarian will ensure the best possible care after your pet goes home.

Emergency & Specialty Hospital

Where care comes first.

Caring & Professional Staff

The IndyVet staff serves its clientele by providing whatever is needed to aid, assist and comfort the patient, their family and referring veterinarians.

Members of our team are here 24/7/365 to ensure the best possible care day or night. They are trained to address untimely or unexpected medical or surgical circumstances and provide exceptional client service in addition to their outstanding patient care. Our nurses attend continuing education lectures and hands on training year-round to maintain their top-knotch skills.

24-Hour Scheduling

Clients are seen by scheduled appointments. If your veterinarian would like to refer you the same day, or after hours, our facility will accommodate you.

If a specialist is not immediately available, an emergency doctor will admit your pet and contact the correct specialist for consultation.

Many times animals need to be sedated for imaging or tests. We ask that you not feed your pet within 12 hours of scheduled appointments.

In order to hasten a diagnosis, veterinarians are requested to forward pertinent laboratory results or radiographs related to the pet's condition to IndyVet for review prior to the scheduled appointment.

Estimates & Fees

All clients are given an itemized care plan upon examination detailing the initial 24 to 48 hours of hospitalization. A deposit is due upon admission.

Clients are informed daily of their fees by a doctor or a technician. Balances are paid upon discharge unless prior arrangements have been made.

You may make payments by Cash, Check, Mastercard, Visa, American Express, Discover, or Care Credit.

Suture removal after surgical procedures is performed at no charge.
